

Gender and FP/CC Discussions

FP1 (CoA1.3)

Esther Njuguna-Mungai

Senior Scientist, Gender
CGIAR Research Program on Grain Legumes
and Dryland Cereals (GLDC)

RESEARCH
PROGRAM ON
Grain Legumes and
Dryland Cereals

Gender research priorities for 2020.

		Remarks
FP1	<ul style="list-style-type: none"> Gender responsive 'product profiles' 'customer profiles' What has been the role of women/youth in the seed success in Myanmar/India/Bangladesh 	Integrated process -
FP3	<ul style="list-style-type: none"> Clarification of 'gender research question'; capacity enhancement on gender research/management of qualitative data for FP3 team. Institutional arrangements for delivery of gender research 	New: Early in 2020.
FP4	<ul style="list-style-type: none"> Gender dynamics in seed systems, Integrating the youth participation, working on the corridor approach, processors/aggregators/BCC Soybean in Ghana study [Steve Cole discussions on 29] 	AVISA/GLDC – initiated (scaling framework from FP1)
FP5	<ul style="list-style-type: none"> Impacts/outcomes of 'gender responsive traits' like rancidity, labour saving and fe/zc among women/community 	New
CC - MPAB	<ul style="list-style-type: none"> Plant based meats: youth enterprise opportunity structures? 	Very very preliminary discussions
Gender-CAPDEV-MAPB	<ul style="list-style-type: none"> Capacity building in capacity building – offering to be a guinea pig with the seed systems/youth/BCC study 	

Emerging gender and youth cross cutting topics

- Future product profiles that are gender responsive – linking with AVISA and new funding?
- Youth participation in scaling of GLDC technologies (scaling framework?)- under what assumptions? What institutional transformation of systems/institutions that enable adoption? With what outcomes?

Demand-driven Innovation for the Drylands

RESEARCH
PROGRAM ON
Grain Legumes and
Dryland Cereals

In partnership with CGIAR Centers,
public and private organizations,
governments, and farmers worldwide
